1) Housekeeping/Information Items

- a) Name change: "Campus Safety Committee" with updated CSC website

The term Facilities is being over used within committee names, the new name is also more appropriate for this committee

Briefly discussed enrollment. The District is under approximately 8,000 FTES compared to highest enrollment period years ago. K-12 are currently experiencing low enrollment across the tri-county area due to cost of living in the areas. Enrollment is not expected to increase significantly from where its at now, over the next few years.

Brian briefly reviewed the Facilities Master (Vision) Planning efforts. Specifically, vision planning is not about architectural designing, but rather studying current program/area data and needs, as well as the current operation status of the campus buildings. This type of snapshot (needs) helps the District to prepare for a Bond.
